LOVE

Lives only in the present. Nature throws a glamour around youth and maiden, so that although they saw misery and marriage walking hand in hand in every home in the world they would fondly believe that they could marry and defy misery.

Young women should be taught to prepare for marriage. They should understand how to preserve their womanly health through the functional changes of maternity. Doctor Pierce's Favorite Prescription is the most effective medicine for the preservation of womanly health and the cure of womanly diseases. It regulates the periods, dries encumbering discharges, heals inflammation and ulceration, and cures female weakness. It prepares the womanly organism for maternity and makes the birth hour practically painless.

"Favorite Prescription" contains no alcohol, neither opium, cocaine, nor other narcotic.

"My wife was afflicted with uterine trouble for several years," writes Mr. J. C. Day, of Little Britain, Lancaster Co., Pa., "and in November, 1894, the doctor said she had a miscarriage. He treated her for about two months or so, but there was but little improvement. I wrote you after she had commenced to take 'Favorite Prescription' and you told us to take 'Golden Medical Discovery' also. She took six or seven bottles of 'Favorite Prescription' and two of 'Golden Medical Discovery' and got out of bed and was able to attend to her household work."

Dr. Pierce's Pleasant Pellets cure biliousness.

RISE OF A LOUDOUN COUNTY BOY.

Appended will be found an interesting sketch of the work and business of Mr. Lewis Nixon, as given in the last issue of the Saturday Evening Post. Mr. Nixon is a native of Loudoun county. The story below shows what a boy with pluck and energy can do, notwithstanding his humble start in life.

An interesting man is Mr. Lewis Nixon, the chairman of the committee of five recently appointed by Mr. Richard Croker—"b-a" Croker—to suppress vice in New York city. The popular idea of an active Tammany leader is well known, but that is not in every case correct is shown by the fact that one member of the committee, Mr. John W. Keller, is not only a Tammany worker and office holder, but a college graduate and former newspaper editor of high personal standing, and that Mr. Nixon is an engineer of national distinction and the designer of the great battleship Oregon.

A southerner by birth and a New Yorker by adoption, Mr. Lewis Nixon is a man who has been building vessels ever since he was big enough to whistle toy craft.

After his graduation from the Naval Academy, the United States government sent him to Europe to inspect the ship and armor building plants of England and France.

Mr. Nixon was not thirty years of age when he designed the Oregon, but the unlimited store of confidence he had in his own ability is testified by the fact that he went ahead and designed the pride of the Pacific and her sister vessels the Louisiana and Massachusetts, in less than ninety days.

Mr. Nixon was in the employ of a great shipyard at the time, superintending the construction of two battleships which he had designed. He had an enviable position, with a salary higher than the force of employees at work night and day, and he built the boats, took them apart, shipped them in sections across the continent, and re-erected the craft on the Pacific coast within the prescribed time.

When the Holland submarine torpedo-boat was first projected, no one save the shipbuilder from New Jersey was especially anxious to undertake the construction of the experimental craft, and so Mr. Nixon easily secured the contract, and the recent success of the little vessel is a monument to the ability of its builder as well as its inventor. Mr. Nixon has also just completed another unique craft—a floating safe in which all the treasure on shipboard is stored, so that in case the vessel sinks this novel craft will ride the waves in safety and attract attention by a light which is ignited at the moment of contact with water.

Mr. Nixon has political ambitions, and by appointment is Mayor Van Wyck is president of the new East river bridge commission of New York city.

RABBITS SPREAD DIPHTHERIA.—More than 100 cases of diphtheria and 20 deaths therefrom occurred in Gaston, Ill., before the means of spreading the infection was discovered. The 2,000 residents, according to the New York Medical Journal, had been ordered to remain indoors by the Mayor to prevent further contagion. It appears that a great many rabbits infested the countryside and hunters killed them in large numbers and offered them in the markets as cheap food. Several hundred dead rabbits were shortly afterwards found near the town. Physicians who examined them soon became convinced that the rabbit flesh was responsible for the infection and had some subjected to microscopic examination. This proved that the rabbits found dead had succumbed to diphtheria. Accordingly, warnings have been issued to the town people to abstain from eating rabbits.

Exposure to a sudden climatic change produces cold in the head and catarrh is apt to follow. Provided with Ely's Cream Balm you are armed against Nasal Catarrh. Price 50 cents at Druggists, or Ely Brothers, 55 Warren Street, New York, will mail it. The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation, cleanses and cures. Cream Balm gel k'ry cures the cold.

Peppin prepares tons of on fall to relieve indigestion because they can digest only alimentitious food. There is one preparation that digests all classes of food, and that is Kodol Dyspepsia Cure. It cures the worst cases of indigestion and gives instant relief, for it digests what you eat.
